INSTITUTE FOR TECHNOLOGY DEVELOPMENT - ITD

The Institute of Technology and Development (ITD) Foundation is a non-profit, nongovernmental organisation motivated by the challenge to support the development of innovative ideas and technology transfer. It is designed to strengthen the academia-industry links, to raise the knowledge and innovation culture and entrepreneurial spirit of young people. ITD is engaged in training and educational activities, supporting the applications of new technologies in business and education, focusing on the methodological research and dissemination of best practices related to ICTs. The establishment of bridges between the academic community and industry in Bulgaria for fostering technology transfer is among the main aims of the ITD.

Based on the DIGITRANS project activities, ITD developed training and consulting services for SMEs to encourage their digital transformation and digital innovation processes, implemented via workshops or one-to-one meetings.

In its capacity as one of DIGITRANS regional incubators, ITD is highly involved in implementing DIGITRANS innovation method through workshops which enable SMEs to innovate their traditional business models.

The ITD Incubation space is adequately arranged and equipped in a way to meet the requirements of all teaching, incubation and research DIGITRANS activities for SMEs.
